

Backpack Flags

Model#: CBF series

Backpack flags are hands free, light weight and portable. If you're looking to catch attention at the next festival, event or even on the streets backpack flags also known as human flags are raised much higher than the average person's height therefore commanding attention. Custom printed flags can be printed single or double sided. We recommend double sided to avoid a mirrored image on the other side of the flags. Backpack Flags are replaceable. The backpack itself is one size fits all, with adjustable straps, a 2 piece high quality fibreglass pole and a single or double sided flag.

Product Features:

- Hands-free marketing
- Light weight and comfortable
- Fiber glass pole kit
- Side Pockets & Brochure storage
- Single or double sided printing options
- Weighs a mere 3 lbs
