

Outdoor Sign Stand

Model#: COS200A

This free standing outdoor sign base is designed to handle the rough treatment that is part and parcel of displaying signage in public areas. It features a hollow rotationally moulded plastic base that is not only durable but can also be filled with water or sand to provide stability and ensure your portable sign isn't toppled in winds and rain. It can hold rigid media up to 1/4" thick. Can be used one to hold a smaller graphic, or as many as you need to hold a large graphic. Each built-in handle makes moving to other locations easily. The bases can be placed outside of hotels, restaurants and retail locations.

Product Features:

- Suitable for both indoor and outdoor
- Easy graphic installation with screws
- Durable plastic base
- Accepts water or sand
- Built-in handle
