

Panel Displays

Model#: CFP series

The panel displays are fabric covered in front and back and framed in black aluminum profile. Headers and panel rows stack to attach vertically. Made from the latest materials, with an amazing 360-degree hinge. We offer both a selection of tabletop and free standing designs. All panels have a black, impact resistant aluminum trim, and are covered in Velcro friendly display fabrics. Panel display systems are quick and easy to setup. They are very portable and easy to transport. We offer 3-panel, 4-panel & 8-panel displays. Header panels are also available.

Product Features:

- 360 degree foldable display board
- Black aluminum profile
- Double sided fabric panels
- Velcro acceptable fabric
