

Pop Up Displays

Model#: CPD100 series

Pop up displays are one of the most popular style of portable trade show displays. Our pop up display offers a variety of benefits including portability, easy set-up and they are cost-effective. Two or more pop-ups can be used in combination to create large backdrops or more unusual shapes to fill almost any exhibition space. They are designed to be used again and again at exhibitions and trade shows. It is easily transportable and can be set up by one person. It has a self locking aluminum frame with connected magnetic struts that allow for a seamless full graphic backdrop. The entire display fits into one case that can be converted into a podium.
