

Tension Fabric System

Model#: CTF series

Our fabric meets CAN/ULC S109-14 & NFPA 701 standards for fire safety. Test result is available.

Tension fabric system is different from the traditional expandable type pop ups. Very simple lightweight framework that clicks together effortlessly. The high quality fabric print simply slips over the frame and is zipped tight giving the display a wrinkle free stylish organic look. The end result of stretched fabric is undeniably striking with no joints. 1 1/4" clear anodized snap tube aluminium frame system with 'pillow case' fabric graphic. Perfect for exhibitions, presentations, trade shows, etc. We offer complete packages including printing and finishing or we can just supply you hardware only. The table, light, and hard case are optional.

Product Features:

- Variety of shapes and sizes
- 1 1/4" clear anodized aluminium interlocking tubes
- Seamless wrinkle free pillow case mounting stretch fabric with industrial zipper
- Comes with a portable carrying bag
- Ease of assembly
- Lightweight yet stable
