

Tension Fabric Tables

Model#: CTF-T Series

Tension Fabric counter is a light weight and quick to assemble counter with fabric that is stretched around the frame which results in an absolutely smooth and wrinkle free surface. It is ideal for exhibitions or trade shows, especially when paired with our tension fabric systems. The counter frame is made up of aluminium pole supports and comes with a wooden top and base to give the counter the sleek and sophisticated look. The counter top can support up to 40 lbs evenly distributed. Our fabric counter comes in various shapes: oval, triangle, and rectangular.

Product Features:

- Collapsible frames
- MDF wood counters (black color)
- Canvas carrying bag
- Easy to store and ship
- Supports up to 40 lbs
- Graphics are designed to be interchangeable
- Dye sublimation printed 100% polyester fabric

Our fabric meets CAN/ULC S109-14 & NFPA 701 standards for fire safety. Test result is available.
