- Heat transferred dye sublimation printing
- Poles spin in the wind
- A variety of base options
- Canvas carrying bag included
- Suitable for both indoor and outdoor
- 1-year manufacturer warranty

Let your message stand out in a crowd with flags. Flags sail come alive by spinning and waving in the wind. Set up and take down require just a few minutes, and the entire flag stand folds neatly into the carrying bag. Our flag poles are made out of fiberglass that is flexible yet very durable. All our bases have a ball-bearing system that makes the pole rotate freely in the wind. We offer complete packages including printing. Our flags are 100% polyester and full color dye sublimated. Single-sided printing is visible on both sides but the reverse side is a mirror image. Double-sided printing utilizes 2 banners sewn back-to-back with opaque liner sewn in-between to prevent show-through.
