- Suitable for indoor and outdoor
- Black power coated steel frame
- Accepts two rigid posters
- Built-in wheels and handle
- Heavy duty spring system
- 1-year manufacturer warranty

The outdoor poster stand is double sided and has a slide-in frame for top-loading access. The posters can be easily updated without the need to replace the whole sign structure. This is one of the most popular forms of on-site advertising that is used to promote a daily special or even a permanent message. It can be used as payment signs, sidewalk signs, driveway signs, and so on. The steel frame is attached to the base with heavy duty dual springs that flex to withstand wind gusts. The steel H-base and water tank base are available. The water tank can be filled with sand or water for added weight. The built-in handle and wheels make the board move around easily. Designed for corrugated plastic (coroplast) signs.
