- The empty frame weighs 24lbs
- Folds flat for easy transportation or storage
- Can be filled with water or sand
- HDPE Construction
- Built-in handle
- Available in grey color only
- 1-year manufacturer warranty

The double sided plastic, solid-faced A frame can hold two rigid signs 23"W x 32"H in size. Simply slide in the graphic from the top through the side channels and be ready to spread the message. The grey color is a perfect backdrop for any graphic. Display signs on both sides of the frame to maximize exposure. Posters not included. This product folds flat for easy transportation and storage. This plastic A frame can be used indoors and outdoors. Constructed from HDPE (high-density polyethylene), this A frame will not rust, splinter, or have discoloration. This A frame can be internally weighted with dry sand or water if additional weight is needed.
