- Comes with 2 halogen lights and a hard case
- Available size: 87.5"x87.5" and 116"x87.5"
- 10-year manufacturer warranty
- LED lights are also available

Tension fabric pop up display systems allow simple fitting and removal of a tensioned fabric banner and is different from the traditional expandable pop ups. Graphics are dye-sublimated stretch fabric with a rubber strip sewn into the perimeter. The rubber strip is inserted into the channel in the display frame, pushing the strip into the perimeter of the frame and pulling the fabric tight and smooth. We call it borderless because these sleek frames are virtually invisible and provide added impact to your graphics. Our fabric is 100% polyester and printed using a full color dye sublimation process, allowing a spectrum of vibrant color and photographic potential on your display.
