Light on

The new-generation LED backlit counter system uses 12V but super bright LED to make graphics vivid and shiny. The light diffuses homogeneously and creates an eye-catching visual effect. It is an anodized snap tube aluminum frame system with a backlit fabric graphic. It comes with a carrying bag. We offer complete packages including printing and finishing, or we can just supply hardware only. Perfect choice for trade shows, conferences, product launch events, and presentations. Recommended for Indoor use only. 1-year manufacturer warranty on LED and 5-year manufacturer warranty on the frame.

Recommended for indoor use only.
