

TENSION FABRIC TOWERS

Vantex™
"Display & Graphic Solutions"

Model#: CTF-TWR series

Product Features:

- Interlocking aluminum tubes
- 31.5" square at the top and bottom
- 10ft high
- 4-sided
- 100% polyester fire retardant fabric
- Full color dye sublimation printing
- Padded carrying bag
- 1-year manufacturer warranty

The freestanding square tension fabric tower system is different from the traditional displays. The tower is 31.5" square at the top and bottom and 10ft high. It is 4-sided, so your graphic will be seen and admired from all angles. 1.25" clear anodized tube aluminum frame system with a "pillow case" style fabric graphic (printed on the outside). The square tower displays feature a light-weight aluminum frame that snaps together effortlessly. The pillowcase style fabric graphic slips over the entire frame. The aluminum frame structure breaks down into pieces for shipping in a carrying bag. A black padded bag is included. Recommended for indoor use only.
