- Tabletop version
- Fits 11" x 17" poster
- Fiberglass poles
- No tools required
- Compact and portable
- Packed in a clear plastic bag
- Lightweight yet stable
- 1-year manufacturer warranty

The tabletop X-banner stand is a lightweight, compact tabletop banner stand capable of supporting an 11" x 17" poster. The framework for the tabletop X-banner stand is very lightweight and collapses down small enough to be transported by hand. The poster for the stand is finished with holes in the corners that the framework fits through to tension the print on the framework itself. The X-banner stand is ideal for traveling, sales promotions, conferences, and events where small-format, yet professional point of purchase displays are required. They are the mini version of X-banner stands that stand on the floor, but the tabletop version offers a stylish and transportable solution. Recommended for indoor use only.
